RevisionFX DENoise for AE v3.1.7 AMPEDQ: How to get the name of a file using "File.getName()" in Android? I have an application which I want to get the name of the file which i have clicked. Can anyone help me how can i do this in Android A: You can see the request parameters and response attributes in the request sent and response received. The request parameters are available in the HEADERS request. The response attributes are available in the RESPONSE body. These resources should help you - You can also refer the following link for HTTP Request to believe that, in implementing the rules, the Board is deciding the merits of an appeal; it merely is determining whether that appeal has been filed within the time allowed, and when that time has expired. III The second requirement, that the agency must provide notice of its decision at the earliest practicable time, requires the determination of when that "appeal" is effective, and whether it becomes effective only after it has been filed or after it has been mailed by the Board. It requires, accordingly, that the Board provide any regulation applicable to its decision. The Board has not done so. In this respect, the letter of Mr. Donaway on behalf of the Board states that the Board will "decide" the appeal on the grounds that it was not received within the "thirty day" period, "even though your appeal was mailed at a later time." The Board's regulations do not provide for such a "decision." The only regulation the Board has applied is its regulation that an appeal will be deemed to be filed on the date of its "receipt" by the
